

The ClimaAir Kit for measuring compressed air flow accurately!

SPECIAL OFFER - EX DEMO KIT FOR ONLY £1,999.00 +VAT + FREE DELIVERY

The ClimaAir 3-L is used in conjunction with the CombiSensor to calculate airflow in m³/hr with a combined accuracy of approximately $\pm 1\%$ of full scale. It also has additional inputs for pressure; temperature; velocity; relative humidity as well as an RS232 output for a PC and a printer output.

The ClimaAir is supplied in a neat carrying case and consists of the following:

- 1 x CombiSensor (Combined velocity; temperature & pressure transmitter)
- 1 x ClimaAir 3-L portable digital display with integral Data-Logger.
- 1 x Set of cables for connecting the CombiSensor to the ClimaAir 3-L
- 1 x Battery charger for the internal, rechargeable batteries
- 1 x Ball valve and adaptor nut for the CombiSensor.
- 1 x 'Hot Tap' kit for 'no-shutdown' measurements.
- 1 x Data Cable for RS232 connection
- 1 x Communications Software CD
- 1 x Hot-Tap Spanner
- 1 x Tape Measure
- 1 x Certificate of Conformity

Total Kit price = £ 1,990.00 (Plus VAT at 15%)
