Advantages:

Quick stop valve theory design, no water hammer. Will silent when shutting off the water. With the same theory with APEX, QUICKSTOP valves. Food grade material. Flow rate is quicker than normal brass and stainless float valves, copyright patents reserved by us, more efficiently supplying water. Anti corrosion, rusty-proof, PV resistant, even can be used in sea water. Widely used on water tanks and water troughs, and other water supply equipments such as aquatic products, fountain products, agriculture equipments cooling towers, etc. Adjustable arm can be used in the vertical or horizontal position.
